By MR R P Dwivedi

Createspace, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. EXPLORERS OF ETERNITY is a compilation of eight highly-acclaimed critical essays elucidating with incomparable ease, spontaneity and transparent simplicity the lucidity and profundity of theological insights and spiritual undercurrents found in the works of six major English Romantic poets and two American Transcendentalists which find a reverberating echo in the hoary and sublime scriptures of India. Such a comparative study proves that eternal truths transcend the artificial barriers of clime or country, time or space and shine through all ages and in all lands. We should draw moral sustenance from them and live a fuller, freer life. The scholarly erudition and academic objectivity employed in this unprecedented comparing and contrasting has blazed a trail and paved the way for further research and exploration in the highly-promising and richly-rewarding aspect of sincere synthesis and close cooperation between the East and the West.
