

Computational Intelligence Methods for Bioinformation and Biostatistics II

Filesize: 8.36 MB

Reviews

It is one of the most popular publications. It is actually written in easy words instead of confusing. You will like how the author created this book.

(Art Gislason)

COMPUTATIONAL INTELLIGENCE METHODS FOR BIOINFORMATION AND BIOSTATISTICS II

Springer-Verlag GmbH Aug 2010, 2010. Taschenbuch. Condition: Neu. Neuware - th
 This volume contains a selection of the best contributions delivered at the 6 - ternational Meeting on Computational Intelligence Methods for Bioinformatics and Biostatistics (CIBB 2009) held at Oratorio San Filippo Neri in Genoa (Italy) during October 15-17, 2009. The CIBB meeting series is organized by the Special Interest Group on Bioinformatics of the International Neural Network Society (INNS) to provide a forum open to researchers from different disciplines to present and discuss problems concerning computational techniques in bioinformatics, systems biology and medical informatics with a particular focus on neural networks, machine learning, fuzzy logic, and evolutionary computational methods. From 2004 to 2007, CIBB meetings were held with an increasing number of participants in the format of a special session of bigger conferences, namely, WIRN 2004 in Perugia, WILF 2005 in Crema, FLINS 2006 in Genoa and WILF 2007 in Camogli. With the great success of the special session at WILF 2007 that included 26 strongly rated papers, we launched the first autonomous CIBB conference edition starting with the 2008 conference in Vietri. CIBB 2009 attracted 57 paper submissions from all over the world. A rigorous peer-review selection process was applied to ultimately select the papers included in the program of the conference. This volume collects the best contributions presented at the conference. Moreover, the volume also includes one presentation from keynote speakers and two tutorial presentations. The success of CIBB 2009 is to be credited to the contribution of many people. Firstly, we would like to thank the organizers of the special sessions for attracting so many good papers which extended the focus of the main topics of CIBB. Second, special thanks are due to the Program Committee members and reviewers for providing high-quality reviews. 320 pp. Englisch.
