Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Correction of Video Camera Response Using Digital Techniques If f is the same over the entire sensor the requirements for data and computation are dramatically decreased, since only one correction function is needed. Theoretical and practical examples are given below for the case in which f is constant over all of the image. However, if f were different for each pixel or for regions of pixels the theory and light measuring technique would be changed only by collecting data and solving for a correction function for each region.
